	Greater than other (glass, stone, etc.) or no majority material over 50%	0,090	0,090	0,090

In the case of a product without any majority material above 50%, the product must be classified in the sub-family "other above 50% or no majority material above 50%".

- **Seating**, professional furniture for seating purposes (Cat09),
- **Worktops and counters** comprises desk and table components and other particular surfaces such as writing boards,
- **Storage** comprises cabinets, chests, trolleys and side tables,
- **Other** comprised mainly of bedding components and other furniture that is not part of any of the three main Valdelia families (fitting room, polling booth, etc.). This "other products" family is very small.
