## SEATING

Seating comprises professional furniture for seating purposes.

## STORAGE

Storage comprises cabinets, chests, trolleys and side tables.

## WORKTOPS & COUNTERS

Worktops and counters comprises desk and table components and other particular surfaces such as writing boards.

## OTHER

Other furniture that is not part of any of the three main Valdelia families (fitting room, polling booth, etc.). This "other products" family is very small.

If a product does not contain more than 50% of a majority material, it will be categorised as « others - no majority material ».

\* Scale for mattresses and bed bases

\*\* The scale « greater than 95% metal » only applies to functional sets, not to components. Valdelia defines a unit as a functional set.

For example: a desk is deemed to be a unit; the desktop and legs form part of the same functional unit.
